

ARGANIQ

**NATURAL
PLANT FOOD**

The wonderful Serebryanoe Lake is hidden in one of virginal corners of Russia. From times immemorial its water has been considered to be healing due to high content of silver ions. But only now the lake has revealed its original wealth. Its depths contain abundant natural resources of great value formed by the flora and fauna of the lake. For more than 4,000 years the fertile soil has been humbly waiting for being discovered.

The natural fertilizer, rich in natural nutrients, numerous microelements and silver content, has a great fertilizing potential and exhibits unique qualities extremely helpful for growing plants.

We get this product carefully preserving its original structure. We transport it to our production plant with caution, trying not to disturb this most valuable and relict combination of natural ingredients. As a result we have **AgraniQ** - excellent material to gain wonderful results in gardening.

100% NATURAL 100% MODERN

(as well as an organic material known and used since old times)

Fireworks of flowers

You would certainly enjoy being surrounded by colorful, tender, elegantly composed floscules fed and inspired by **AgraniQ**. It will sure to come to your mind that you have produced the effect with your own hands.

Like no other

AgraniQ has no smell and looks like homogeneous paste. It is pleasant to touch and easy to treat. And it is much more interesting to work with **AgraniQ** than with anything common. Your plants are sure to feel novelty!

Protected by silver

Silver is praised not only as jewelry. If your soil contains active silver, it will protect the newly grown plant against harmful bacteria, fungi and microorganisms. **AgraniQ** contains natural silver (Argentum Naturale) which accelerates nourishment, normalizes photosynthesis processes and protects your plant against external dangers.

You stand to gain by it!

You give your plants organic nourishment and **AgraniQ** microelements. The plants, in exchange, gladden you with their extremely beautiful, green and juicy leaves.

Enjoy the result.

You are absolutely sure to be satisfied with your gardening experience. The result will make you smile more often.

Experiment!

More than 2000 years ago Nebuchadnezzar II, the king of Babylon, grew the famous Hanging Gardens in honor of his beloved using a similar fertilizer. Now you are the owner of this magic product. What will you do with the help of it?

Everything would grow!

Be sure you are free to plant anything and anywhere you like! With **AgraniQ** you become a real master of plants. They would gladly obey and fulfill all your desires.

Three in one

Use **AgraniQ** to minimize transplantation stress. The product has 3 functions vital for removing plants: it protects the roots against harmful diseases and blights, provides natural nourishment, and supplies plants with additional water.

Pay special attention to the convenient and economic package of **AgraniQ**! One can of the stuff is enough to plant all your balcony flowers and your favorite citrus, ficus and olive trees, etc.
